

Jobber Length Drill Bits
High Speed Steel 118° Point

Bright finish drills feature a highly polished flute for fast chip removal.
 Black finish drills have received a surface treatment which can reduce chip welding and improve cutting life.

DRILLCO

Cobalt 135° Split Point

Special heat resistant cobalt high speed steel plus heavy duty construction makes these drills an excellent choice for drilling holes in hard, tough materials such as stainless steel, manganese etc. These drills have a gold color surface treatment for identification. 135° split point insure greater ease of penetration, no "walking" and minimum work hardening of material.

DRILLCO

High Speed Steel Pilot Point® Black Finish

- DeWalt's patented PILOT POINT® provides the most accurate and cleanest holes.
- Exclusive PILOT POINT® eliminates walking and prevents lock-up at breakthrough.
- Enlarged flute chamber maximizes chip removal.
- Acute cutting edges increase drilling speed and produce clean, smooth holes with minimal burrs.

DEWALT

Industrial Titanium Drill Bits

- Extra hard titanium coating for maximum service life.
- Industrial grade steel.
- Ideal for drilling in light gauge metals.
