

## Bi-Metal Hole Saws

### FEATURES

- Bi-Metal construction
- M-3 High Speed Steel cutting edge
- 4/6 variable tooth
- 3/16" heavy duty backing plate
- 1-1/8" cutting depth

### BENEFITS

- Sharper, longer lasting teeth
- Smoother cuts
- Faster cutting
- Eliminates need for drive plate

### ADVANTAGES

- Shock resistant teeth
- Resist tooth slippage
- Less vibration

### APPLICATIONS

- Holes for pipe and tubing installation, door locks installations, electrical conduit, hoses and antennas
- Plumbing
- Construction
- Aircraft
- Electrical
- Maintenance
- Automotive
- Stainless Steel
- Aluminum
- Brass
- Cast iron
- Plastic
- Wood
