

Hacksaw Frame
FEATURES

- Heavy-duty aluminum handle
- Permanent hardened/serrated blade holding pins
- 45° blade holder pins for flush cutting
- Rectangular steel crossbar
- Blade storage
- Converts to job or compass saw
- Blade tensions to 30,000 psi
- Fold away tension lever
- Steel tensioning nut

12132HT50

\$39.²⁵

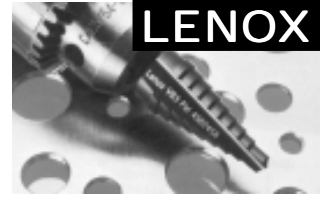

BENEFITS

- Strong
- Safe to use
- Straighter cuts
- Longer blade life
- Saves time/improves productivity
- Versatile
- Fast cutting
- Easier to push through the cut

LENOX

Vari-Bit Step Drill Bits
FEATURES

- Double flute design
- 135° fast cutting starter drill point
- High speed steel construction
- Cuts up to 1/8" thick material
- Three flats on shank

LENOX

VARI-BIT STEP DRILL BITS

Hacksaw
FEATURES

- Rugged heavy-duty aluminum handle
- Designed for hard-to-get-at places
- Cuts bolts, wire, tubing and plastic
- Includes bi-metal 10" blade

975

LENOX

\$13.⁴⁶

BENEFITS

- Strong
- Economical
- Convenient

Hand Hacksaw Blades
FEATURES

- Bi-metal construction
- Spring steel back
- Tooth hardness Rc 64-66
- M-2 high speed steel cutting edge

LENOX

BENEFITS

- Last longer
- Safer than solid high speed steel blades
- Out perform carbon steel up to 10 to 1
- Easier to push through the cut
