

### Medium/Heavy Duty Plate Casters

The "200" is a precision-built swivel caster with two perfectly aligned swivel raceways. All the cold-formed parts are made to exacting tolerances from heavy gauge steel and are hardened for severe service and long wear.

#### APPLICATIONS

A large selection of wheels makes it adaptable to a variety of industrial and institutional equipment. Widely used on warehouse trucks, refuse containers, linen carts, etc.

### Light/Medium Duty Plate Casters

The "050" has two separate ball bearing swivel raceways. Construction is cold-rolled steel, embossed for strength and heat-treated for long wear.

#### APPLICATIONS

Well suited for food service, hospitals, laundries, dairies, furniture and appliances, electronic cabinets, etc.

**PAYSON  
CASTERS**

### Light Duty Plate Casters

An ICM standard. Constructed of cold-rolled steel and embossed for extra strength, the "020" is a double ball-race caster, heat-treated for longer wear and greater strength.

#### APPLICATIONS

The "020" is designed for use on the following equipment: tool carts, food service trucks, hospital, appliance, office and other portable equipment.

### Steel V-Grooved Wheels

This wheel has been accurately machined to fit snugly on angle iron track.

#### ENGINEERING DATA

High capacities. Fully machined. Flat on bottom. Can be rolled on smooth floors.

#### APPLICATIONS

Excessive heat or cold.  
Shock loads.  
Severe operating conditions.
