

**Metalmaster® Compound Action Snips**

- Non-slip serrated jaws of Wiss® Metalmaster® snips are made of extra tough, wear-resistant molybdenum steel to provide extra service demanded by the compound lever action
- Withstands severe strain of cutting heavy stock and tight curves
- Handles are formed of high strength steel
- Handles have a margin of strength far above the limit of hand power that can be exerted

**M1R** - Left Cut, Cuts left from tight curves to straight

**M2R** - Right Cut, Cuts right from tight curves to straight

**M3R** - Cuts straight, left or right in light stock

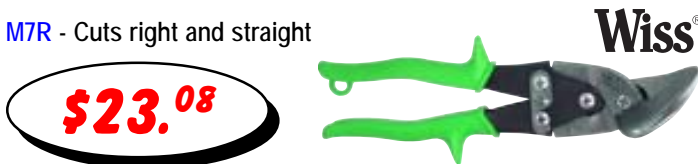

**Metalmaster® Offset Snips**

- Offset blades keep hands clear of metal
- Non-slip serrated jaw of tough molybdenum steel allows for compound lever action
- Withstands strain of cutting heavy stock and tight curves
- Spring-action for fast, effortless feed
- Handle of high tensile strength alloy steel exceeds hand power limit
- Non-slip, textured grips and safety latch for superior control
- Handy hang-up hole

**M6R** - Cuts left and straight

**M7R** - Cuts right and straight

**MultiMaster® Snips**

- Combines the long cut of tinner's snips with the strength of compound action
- Compound action multiplies the force of the hand by five times
- Great for making long, fast cuts in several types of material including: paper, plastic, sheet metal, aluminum, vinyl siding, screening, and much more
- Non-slip, serrated jaws as well as non-slip textured grips
- Cuts up to 20 gauge steel

**Straight Pattern**

- Cuts straight and wide curves (when trimming light gauge stock)
- For plumbing, heating, air conditioning and roofing trades, also used as handyman's tool
- Blades of finest quality steel, hot drop-forged for sharp edge
- Cushion handle for comfort and better grip
- Flat face guides tool along straight line
- Blades individually hand edged for maximum cutting efficiency

**A-9N**  
12-1/2" Long  
Cuts up to 20 gauge

**A-11N**  
9-3/4" Long  
Cuts up to 23 gauge

**Duckbill Combination Pattern Snips**

- Cuts moderately tight curves left or right in light stock as well as straight
- Popular with home craftsman and professionals
- Blades individually hand edged for maximum cutting efficiency
- Cushion handle for comfort and better grip
- Blades of finest quality steel, hot drop-forged for sharp edge and long life
- Rust resistant blades

**Metal-Wizz® Snips**

- Cuts curves, straight or any combination
- Used for cutting screening, hardware cloth, synthetic shingles, tile gutters, downspouts, and carpeting
- Spring-action for fast, effortless feed
- Non-slip, textured grips and safety latch for superior control
- Handles are formed of high strength steel
- Non-slip serrated jaw of tough molybdenum steel allows for compound lever action
